

Emcy A. Gentizon

VIRTUAL EXECUTIVE ASSISTANT & OPERATIONS SPECIALIST

Rizal, Philippines · +63 961 738 5572 · emcy.ph05@gmail.com · emcy-gentizon.github.io

PROFILE

I support business owners and managers by handling the operational and administrative work that keeps a business organised and moving — customer coordination, vendor management, onboarding workflows, billing, documentation, and back-office systems. For 13 years I was the sole remote operator for a Canadian point-of-sale and equipment leasing company, taking full ownership of every process handed to me — independently, across time zones, in both CAD and USD. I work well without hand-holding and stay organised under competing priorities.

CORE STRENGTHS

- Operations and back-office coordination
- Customer onboarding — end to end
- Executive and administrative support
- Vendor and supplier communication
- Lease administration and contract tracking
- Billing, invoicing, and payment processing
- ISO 9001 & 14001 records management
- QuickBooks Online & Premier (CAD & USD)
- ConnectWise Manage · CAFT · Global Payments
- Microsoft Excel · Teams · Google Workspace

PROFESSIONAL EXPERIENCE

Condor Solutions Ltd. — Calgary & Medicine Hat, Alberta, Canada

Virtual Executive Assistant & Operations Specialist | Remote | 2013 – 2026

Sole remote back-office operator for a Canadian point-of-sale company. Took over the full operational role from the financial manager and ran it independently for over a decade — across time zones, from the Philippines.

- Owned the full customer onboarding cycle — from signed quote to completed installation: created ConnectWise tickets, collected downpayments, raised purchase orders, coordinated with suppliers, monitored equipment delivery, scheduled technicians, and processed final payment
- Managed all inbound and outbound business calls via Konnect and Phone2 VOIP on a company 1-800 number — sole communication point of contact from 2020 onward; internal comms across Yahoo Messenger, Skype, and Microsoft Teams throughout tenure
- Maintained customer equipment records, support agreements, and prepaid service plan documentation in ConnectWise — all accounts current and correctly categorised
- Handled invoicing, bank reconciliation, and payment processing in QuickBooks Premier across parallel CAD and USD accounts; processed credit card payments via Global Payments
- Maintained ISO 9001 and 14001-compliant records independently throughout entire tenure — consistent, organised, and audit-ready

Key result: Recovered over 90% of outstanding AR over 22 months — sustained alongside all ongoing daily responsibilities.

KK Leasing Inc. — Calgary & Medicine Hat, Alberta, Canada

Leasing Administrator & Operations Coordinator | Remote | 2013 – 2026

Ran simultaneously alongside Condor Solutions Ltd. under the same ownership — sole operator managing the full equipment leasing lifecycle alongside the managing director.

- Managed a portfolio of up to 50 active leasing clients — monitored contract terms, tracked expiry dates, and coordinated renewals end to end
- Processed Personal Property Security Act (PPSA) registrations for all equipment leases — a legal filing requirement specific to Canadian secured transactions
- Set up and administered customer payment accounts in CAFT — configured debit records, banking details, and monthly payment schedules for CAD lease fee collection; used continuously from 2016 through 2026
- Coordinated the full leasing process from documentation through to installation scheduling — liaising between clients, management, and technicians
- Reconciled lease payments and maintained accurate records in QuickBooks

Cool R Us Inc. (Ramcar Group / KFC Philippines) — Philippines

Technical Clerk & Customer Service Coordinator | 2010 – 2013

Cold equipment service and maintenance division of Ramcar Group — the sole KFC master franchisee in the Philippines under Yum! Brands Inc. One of three staff managing all equipment-related concerns from 400+ KFC stores nationwide.

- Received and triaged inbound calls and emails from store managers across the country — filtered by area and dispatched to the appropriate regional engineer for resolution
- Processed hundreds of repair and service reports per day into Excel — maintained accurate records across a high-volume nationwide operation
- Generated weekly and monthly performance reports for the director to present to the CEO

First Security Group LLC — Dubai, UAE

Debt Collections Administrator | 2007 – 2009

- Managed international debt recovery across multiple client portfolios
- Coordinated payment resolution with global account holders

Provincial Government of Guimaras — Philippines

Data Encoder & Office Clerk | 2002 – 2006

- Data encoder, Bids & Awards Committee — procurement documentation and records
- Office clerk, Office of the Governor — executive administrative support

EDUCATION

Bachelor of Science in Accountancy

University of San Agustin · Iloilo City, Philippines
